Kilsby is a village and civil parish in the Daventry district of Northamptonshire, England, situated approximately five miles south-east of Rugby and six miles north of Daventry.

It gives its name to the Kilsby Tunnel on the West Coast Main Line. The tunnel measures 2400 yards (2,216m) in length, and was designed and constructed by Robert Stephenson, son of the famous George Stephenson who invented the early steam-engine "The Rocket".

Contrary to popular opinion, the 'George Hotel' in Kilsby was not named after George Stephenson but after King George III - because the hotel lies on the route of the old eighteenth-century turnpike road from Daventry to Lutterworth, and the Act of Parliament that was passed in order to create the turnpike road was signed by King George (in fact, any pub that you may find called 'The George' is almost certainly located beside a former turnpike road).
